

Make a Difference

Verse 1

Watching the world behind closed doors
Wondering what he's thinking
Searching for answers day and night
Maybe someday he'll be free

Verse 2

Come to me know my little child
I'll keep you safe beside me
I'll hold you tight, kiss you goodnight
And pray that someday you'll be free

PRECHORUS:

Free to love, free to be
All the things I dreamed of that one day he would achieve
Free to play, free to say
All the things he wants and needs, Oh
Someone won't you help me please cuz'

CHORUS

You can make a difference now
Make your life seem so worthwhile
Share your riches, share your time
Just stop and see all the reasons why
You can make a difference now

Verse 3

I hope that someday we can look back
They'll know the signs and know their meaning
Once seemed so wrong... just made us strong
Knowing that he was meant to be.....

PRECHORUS

CHORUS

Bridge:

And let me say just one more thing before I go....
This child has come into this world to help us grow
So join together, giving thanks and gratitude
For all the things in life that He's given to you!
